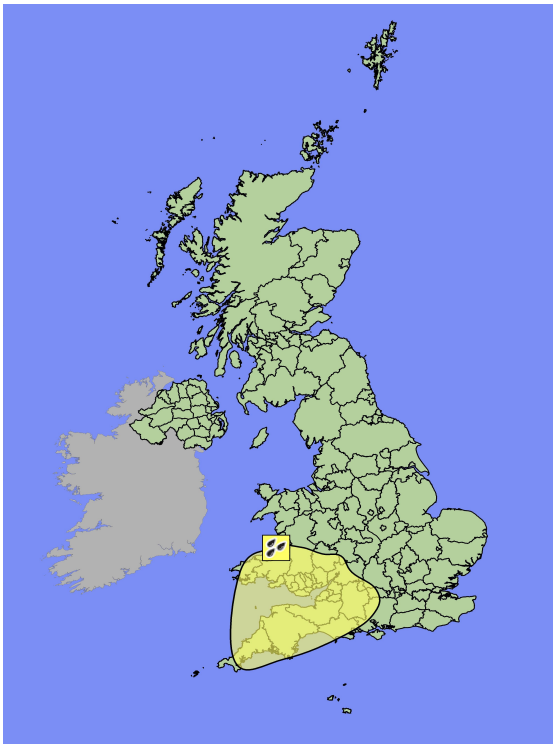
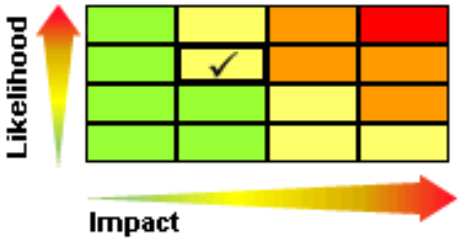
National Severe Weather Warning Service





CANCELLED

Chief Forecasters Assessment
Where they occur, the heavy showers or thunderstorms will produce some large accumulations (typically 20 to 30 mm within 2 to 3 hours). However, not all areas will see the showers and some areas will remain dry.

The Met Office have issued a **Yellow Alert** of **Rain**

Valid from **11:00 on Fri, 06th Jul 2012** until **23:59 on Fri, 06th Jul 2012**

Heavy showers or thunderstorms are likely on Friday with the potential for some heavy rainfall in places. The public should be aware that, following recent heavy rainfall, the ground remains saturated, and that further rainfall would lead to surface water issues and perhaps localised flooding.
